Monitoring Sales: Nicotine Pouch Trends

This report highlights trends from February 2020 to April 2025.

What's the Bottom Line?

- Nicotine pouches contain a powder made of nicotine, flavorings and other ingredients. The powder dissolves in the mouth, and nicotine is absorbed through the gums and lining of the mouth. Nicotine is an addictive chemical that is especially dangerous for youth, young adults and pregnant people.
- Nicotine pouch sales in the United States are rapidly increasing, particularly since 2023.
- Nearly all nicotine pouches sold in the United States are non-tobacco flavored. Most are mint-flavored.
- Nicotine pouch sales in states with flavor restrictions on nicotine pouches are dominated by 1) products marketed as smooth/original but likely contain sweeteners, and 2) products which provide a cooling sensation and contain sweeteners without a characterizing flavor.^{1,2}

Background

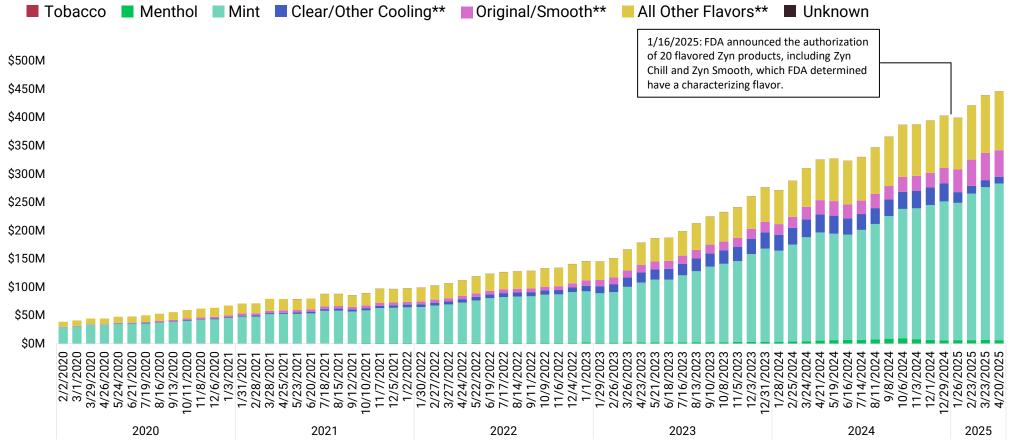

- No tobacco product is safe, including nicotine pouches.3
- In 2024, 1.8% of middle and high school students (480,000 youth) used nicotine pouches in the past month.4 Between 2022⁵ and 2024, pouch use increased by more than 60.0% among U.S. middle and high school students.
- Nicotine pouches were the second most commonly used tobacco product among youth in 2024, behind e-cigarettes.
- Two states, California and Massachusetts, prohibit the sale of tobacco products with flavors (other than tobacco flavor), including nicotine pouches.
- States with flavor restrictions on nicotine pouches have a vastly different mix of flavors sold compared to states without flavor restrictions on nicotine pouches.
- On January 16, 2025, FDA announced the authorization of 20 flavored Zyn products, including Zyn Chill and Zyn Smooth, which FDA determined have a characterizing flavor.6

Key Findings

- Total monthly nicotine pouch sales increased by 207.0% between January 2023 and April 2025.
- Few nicotine pouches sold in the United States are tobacco flavored. As of April 2025, mint flavor accounts for 62.1% of sales, followed by other flavors (e.g., fruits, candy, drinks) at 23.2%, and flavors marketed as smooth/original at 10.6%.
- In Massachusetts, nicotine pouch sales are dominated by products marketed as smooth/original, which likely contain sweeteners, and by products which provide a cooling sensation and contain sweeteners. In California, which now prohibits the sale of products with a distinguishable cooling sensation, nicotine pouch sales are dominated by products marketed as smooth/original. In states without flavor restrictions on nicotine pouches, mint and all other flavors (e.g., fruits, candy, drinks) are the most commonly sold flavors.

^{*}Sales data do not reflect sales from vape shops or online retailers; dates represent end of 4-week periods.

Trends of Nicotine Pouch Dollar Sales by Flavor from 12/4/2022 to 4/20/2025, Following California's Flavored Tobacco Restriction Total nicotine pouch dollar sales increased from \$15.5 million to \$34.4 million (+122.0%).

In November 2024, California's Department of Justice began notifying certain manufacturers that their products with distinguishable cooling sensations would be explicitly prohibited by changes to California's flavored tobacco law, beginning January 1, 2025. Clear/other cooling flavored nicotine pouch sales decreased 97.1% from December 2024 to April 2025, while smooth/original flavor increased 121.6%.

Tobacco-flavored nicotine pouch dollar sales increased from \$0 to \$492.2 thousand; dollar share increased from 0.0% to 1.4%.

Menthol-flavored nicotine pouch dollar sales decreased from \$278.7 thousand to \$11.1 thousand (-96.0%); dollar share decreased from 1.8% to 0.03%.

Mint-flavored nicotine pouch dollar sales decreased from \$7.9 million to \$2.8 million (-64.5%); dollar share decreased from 51.3% to 8.2%.

Clear/other cooling-flavored nicotine pouch dollar sales decreased from \$2.1 million to \$508.5 thousand (-75.2%); dollar share decreased from 13.3% to 1.5%.

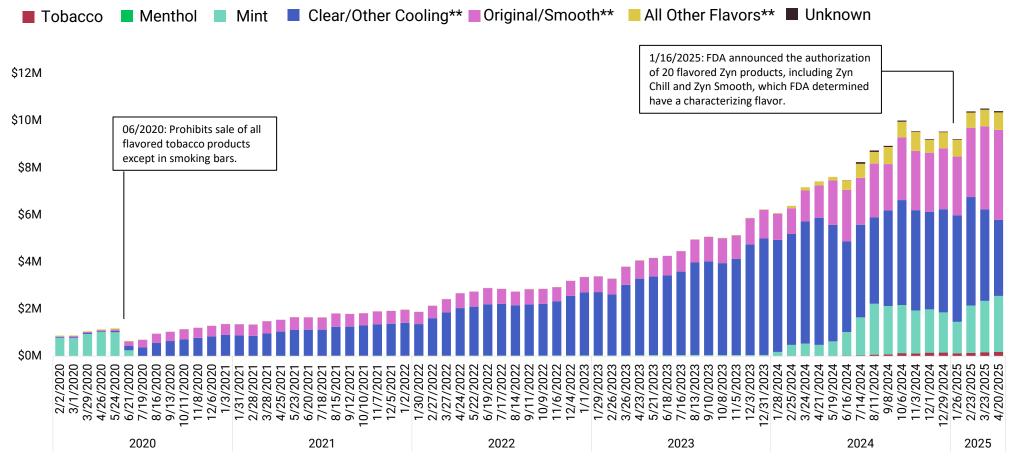

Original/Smooth nicotine pouch dollar sales increased from \$2.1 million to \$29.1 million (+1,311.0%); dollar share increased from 13.3% to 84.5%.

All other-flavored nicotine pouch dollar sales decreased from \$3.2 million to \$1.2 million (-62.2%); dollar share decreased from 20.3% to 3.5%.

^{**}Clear/Other Cooling includes products with flavor names such as clear, clear ice or unflavored, which likely contain non-menthol synthetic cooling agents (e.g., Zyn Chill, Oeo Clear). Original/Smooth includes products with flavor names such as smooth or original which likely contain artificial sweeteners (e.g. Zyn Smooth, On! Original, Zyn Original). All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac or other cocktails), candy/desserts/other sweets or some other flavor.

Figure 3. Total Nicotine Pouch Dollar Sales, by Flavor, Massachusetts

*Sales data do not reflect sales from vape shops or online retailers; dates represent end of 4-week periods.

Trends of Nicotine Pouch Dollar Sales by Flavor from 1/29/2023 to 4/20/2025

Total nicotine pouch dollar sales increased from \$3.4 million to \$10.4 million (+206.8%).

Tobacco-flavored nicotine pouch dollar sales increased from \$0 to \$175.3 thousand; dollar share increased from 0.0% to 1.7%.

Menthol-flavored nicotine pouch dollar sales increased from \$0.4 thousand to \$2.0 thousand (+375.5%); dollar share remained 0.0%.

Mint-flavored nicotine pouch dollar sales increased from \$26.9 thousand to \$2.4 million (+8,734.3%); dollar share increased from 0.8% to 22.8%.

Clear/other cooling-flavored nicotine pouch dollar sales increased from \$2.7 million to \$3.2 million (+20.4%); dollar share decreased from 79.3% to 31.1%.

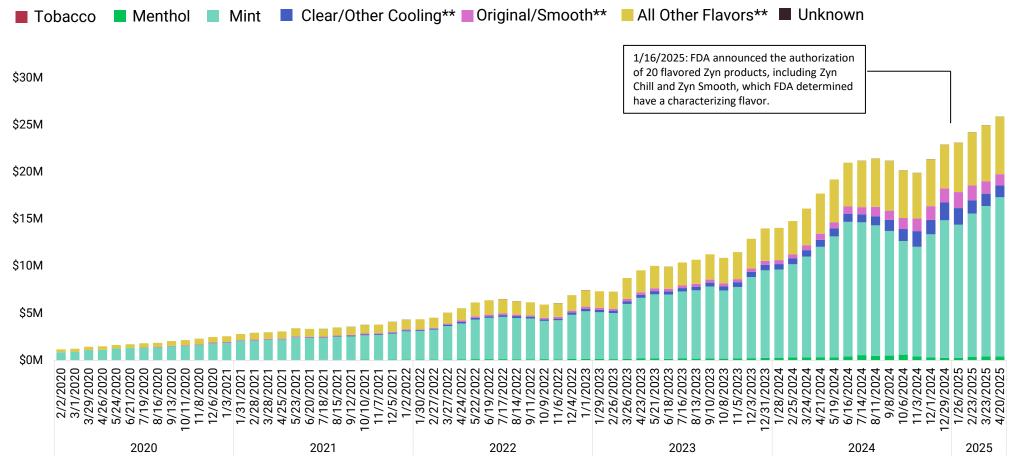

Original/Smooth nicotine pouch dollar sales increased from \$667.0 thousand to \$3.8 million (+472.3%); dollar share increased from 19.7% to 36.7%.

All other-flavored nicotine pouch dollar sales increased from \$7.3 thousand to \$741.2 thousand (+10k%); dollar share increased from 0.2% to 7.1%.

^{**}Clear/Other Cooling includes products with flavor names such as clear, clear ice or unflavored, which likely contain non-menthol synthetic cooling agents (e.g., Zyn Chill, Oeo Clear). Original/Smooth includes products with flavor names such as smooth or original which likely contain artificial sweeteners (e.g., Zyn Smooth, On! Original). All Other Flavors category includes fruit, clove/spice, chocolate, alcoholic drink (such as wine, cognac or other cocktails), candy/desserts/other sweets or some other flavor.
